Examiner Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. Claims 18-31 are cancelled.

Authorization for this examiner's amendment was given in a telephone interview with Eileen Lehmann on 11/17/06.

Reasons for Allowance

1. Claims 1-2, 5-14, and 16-17 are allowed, and claims 3-4, 15, and 18-31 are cancelled.

2. The following is an examiner's statement of reasons for allowance.

Arguments in appeal brief filed on 9/06/06 are:

1) One crucial difference between the teachings of Poole in view of Headings and the present invention is that the present invention, as recited in claims 1, and 14, appending the metadata file of each of documents with the at least content attribute, modifying the metadata file of each of the document to include the at least one content group. By contrast, Poole states that each of constituent portion of the document is associated with an entity reference which is selected by the document developer.

2) Poole in view of Headings fails to teach assigning content attributes values to the content attributes for each of the documents based on the content. Because, Poole teaches the Inference Engine, in which the rule requires values be assignable to attributes at runtime assignment. By contrast, the assigned values are not content attribute values for each of the documents based on the content.

3. As to point 1) and 2), they are persuasive.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
